

KEAN ANGELO L. GENOTA

IT INTERN | NETWORKING • WEB DEVELOPMENT • PROJECT MANAGEMENT

09152491965 | kean_genota@dlsu.edu.ph | linkedin.com/in/kean-genota

PERSONAL PROFILE

Fourth-year BS Information Technology student at De La Salle University with hands-on experience in networking, web development, and project management. Certified in Cisco CCNA 1 and 2 and JLPT N5, demonstrating commitment to continuous development. Proven leader through organisational roles and award-winning national and international competitions. Adept at team collaboration, project delivery, and technical problem-solving. Seeking an IT internship to apply a well-rounded technical foundation in real-world IT operations.

TECHNICAL SKILLS

Networking: TCP/IP, LAN/WAN, Cisco CCNA 1 & 2, Switching & Routing, Wireless Networking,

Web Development: HTML, CSS, JavaScript, NodeJS, WordPress, Laravel, NGINX, NPM

Game Development: GDScript, C#

Mobile Development: Android Studio, Kotlin

UI/UX Design: Figma, UX Research & Testing

Video Editing: Wondershare Filmora, Adobe After Effects

API Documentation: Javadoc

Programming Languages: Java, Kotlin, C, C++, C#, Python, PHP, TypeScript, GDScript

System Administration: Ubuntu Linux, Apache, Proxmox

Database Management: MySQL, MongoDB, SQLite, PostgreSQL

Software Development: Scrum, Agile, Lean Six Sigma, PMBOK, DSA

Graphic Design: Adobe Illustrator, Canva, Aseprite

DevOps & Hardware: Docker, Arduino IDE, ESP32, GitHub

Office Productivity: Microsoft 365, Google Suite

EMPLOYABILITY SKILLS

Leadership • Problem Solving • Teamwork and Collaboration • Creativity and Innovation • Communication • Adaptability

WORK EXPERIENCE

Web Development Intern | Marvill Web Development Ltd.

March 2022 – August 2022

Web solutions provider specialising in custom website design and development for business clients.

- Customised WordPress websites by selecting appropriate themes and configuring plugins to meet individual client specifications and branding requirements.
- Optimised website performance using WP-Optimise and WP-DB Manager tools, improving database efficiency and page load speed across multiple client sites.
- Developed and maintained website content and functionality in alignment with project requirements, contributing to uninterrupted client operations throughout the internship period.
- Applied front-end and back-end programming skills to deliver project deliverables on schedule, strengthening proficiency in WordPress, database modelling, and client communication.

ACADEMIC & TECHNICAL PROJECTS

Enterprise Network Design – Two-Floor Office – Cisco, LAN/WAN, Subnetting

January – April 2026

- Designed a complete network topology for a business spanning two floors, including IP addressing, subnetting, VLAN segmentation, and router/switch configurations.
- Produced detailed network diagrams and technical documentation for the proposed infrastructure.

Pitch Visualizer Dashboard – Python, Data Visualisation

December 2025

- Created an interactive data visualisation dashboard to analyse and present pitch-related metrics.
- Applied data processing pipelines and visual encoding best practices for clarity and user insight.

Konibui – Trading Card Game E-Commerce Website – HTML, CSS, JavaScript, NodeJS, MongoDB May – August 2025

- Built a full-featured e-commerce platform for trading card games with product listings, cart, and checkout flow.
- Designed the database architecture for inventory management, user accounts, and order processing.

Senate Election Information Application – Android Studio, Kotlin September – December 2024

- Developed an Android mobile application delivering structured information on Philippine senate election candidates.
- Implemented scrollable candidate profiles, filtering, and data-driven UI components using Android Studio.

Doctor Schedule Appointment System – PHP, MySQL September – December 2024

- Built a web-based appointment scheduling system for a medical practice, featuring doctor and patient portals.
- Implemented CRUD operations with PHP and relational database design using MySQL.

iLABu – Lab Reservation System – HTML, CSS, JavaScript, NodeJS, MongoDB May – August 2024

- Designed and implemented front-end and back-end features for a full-stack laboratory reservation web application.
- Developed a MongoDB database schema to manage accounts, profiles, laboratories, seats, and reservations.
- Implemented user authentication, seat booking logic, and reservation management with real-time availability.

Vending Machine Simulator – Java May – August 2023

- Developed an object-oriented vending machine simulation in Java, incorporating inventory management, transaction processing, and change calculation logic.

iRespond – Gender Equality Application – C#, Bunifu, WinForms, Android Studio October – December 2021

- Developed a desktop application presenting data on gender inequality issues in the Philippines using Bunifu UI framework, WinForms, and C#.
- Coordinated an Android companion version of the app, aligning feature parity and UI consistency across platforms.

VaccInfo – Data Visualisation Application – Full-Stack Web April – May 2021

- Developed a full-stack application demonstrating data mining and visualisation techniques applied to real-world pandemic datasets.

Strain X – Computer Game – Godot, GDScript November – December 2020

- Designed and built a complete computer game using the Godot engine and GDScript, applying structured software development and creative problem-solving principles.

EDUCATION

De La Salle University – Manila | BS Information Technology September 2022 – Present

Acquiring advanced knowledge in networking, web development, systems analysis, database management, and project management through coursework and hands-on academic projects using Java, SQL, C#, and web technologies.

iACADEMY | Senior High School – Software Development Strand | High Honours September 2020 – June 2022

Completed the Software Development strand, building foundational skills in front-end and back-end programming using C++, C#, Java, and SQL. Served as PRO and Social Media Manager of the iACADEMY Junior Software Developers organisation.

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA 1 & 2) – Introduction to Networks and Switching, Routing and Wireless Essentials – Cisco Networking Academy
- Japanese Language Proficiency Test (JLPT) – N5 Level Certified – Japan Foundation

ACCOMPLISHMENTS

- Grand Prix Champion – 2023 Busan Choral Festival and Competition (International)
- Grand Champion – 2023 National Music Competitions for Young Artists (NAMCYA)
- Graduated with High Honours – iACADEMY Senior High School, Class of 2022
- Project-based Learning Champion – First Semester 2020, iACADEMY
- Project-based Learning Best Work Award – Second Semester 2021, iACADEMY

PROFESSIONAL ASSOCIATIONS

- iACADEMY Junior Software Developers (iJSD) – PRO, September 2021 to August 2022
- Velocity SHS – Member, 2020 to 2022

LANGUAGES

- Filipino – Native Speaker
- English – Fluent
- Japanese – Basic (JLPT N5 Certified)

HOBBIES & INTERESTS

Competitive choral performance, web development, game design, music technology, Japanese language and culture, open-source software exploration, and digital content creation.
